## TECHNOLOGY Why Face book is in Important to me. By Deshawn Estwick

It's how I connect and talk people. Without Facebook I cant reach a lot of friends that I want to stay in touch with.

Facebook is visual I like to see how people are doing and what they have been up to. It's nice for my family to see pictures of me. It is free to use. It's great to have. Especially when you don't have a phone or a way to reach someone in person. I can login anywhere like theSpace, the library or at home.

I like to decide and choose who I talk to and do not talk to. I can add people and also block people who I don't like. If people bother me or are rude I can delete them. It's nice because I get to choose for myself who I talk to. I can also talk to my girlfriends and video chat on my laptop or my phone.

## LOCAL Local Treasure: Walter Baker Centre

By Michael Nedohin

The Walter backer centre is a great place to visit. It's a big part of the Barrhaven community. It has nice comfy chairs for you to read graphic novels and my personal favourite, travel books. You can also peacefully enjoy a nice variety of plants inside the building. It's so enjoyable you could sit and read for hours. Too bad you stay overnight

It's very close to homes and other restaurants, including schools all accessible by the #170 OC Transpo Bus route.

Inside people can use the pool, the water slide, sauna and the awesome hot tube. If you want to cool off try out the diving board. If swimming isn't your thing then check out the exercise facility they have upstairs. Here you can try out cross training and use the treadmill or the dumbbells while you catch up on the news and Oprah and modern music as you watch the flat-screen TVs. Make sure to also check out some of the nice hockey games to watch on the ice and when your all done you can stop by the cafeteria for a light snack.

Overall you can easily bus and walk to the Walter Baker Centre making it a great

## LIFE Kitchen Safety: 5 Important Tips

By Malaika Braimah

When you are going to use the kitchen it is very important that you focus on your cooking and prep. Don't get distracted while doing your kitchen duties. It's easy to start talking to someone or listen to the radio and loose track of the stove.

Hygiene is also important. Make sure you wash your hands before you start cooking. If you have dirty hands and forget to wash then you can get sick and others sick.

Don't rush when you are cooking. Make sure you have time and a plan so you don't rush and quickly cook things. Mistakes can happen you are running around. Remembering to turn off the stove is also important.

Finally its never a bad idea to clean up after yourself. Be sure to tidy up the stove and wash dishes. Don't leave sharp knives in the sink. The next person to use the kitchen could be injured.

## OPINION Ottawa Sens Will Always Be A Great Team

By Andrew Urie

The Ottawa Senators are a great team because I liked them when I was a kid My favorite player is Erik Karlsson I feel they can make the play offs because they haven't won a Stanley Cup since the 1920s.

The last game was awesome because it was the first game that I've been went to overtime and they won 3-2 against the Minnesota Wild and me, my mom and the rest of the sens fans we're happy that karlsson scored with only 30 seconds left. There are 38 games left before the play offs and hopefully they will make it.

## OPINION Japanese Vs. American

By Clara Verdon

This Article will tell the reader why Japanese themes in show/movie/ and books are better than English produced ones. I hope to convince the reader that english shows and are not enjoyable compared to Japanese ones. This is because after watching many shows I learned that they are more catchy and I feel that they are more mature theme wise. People who watch both will learn they are better written when produced by Japanese companies often have larger variety of theme compared to North America ones.

## GAME REVIEW

### Omega Quintet

By Andrew Urie

Omega Quintet, PS4, April 28th 2015

What I like about the game is you fight play as the 5 verse maidens.

What makes the game fun is you can watch their concerts when you're not fighting monsters.

What I do in the game is you fight monsters known as M.A.D.S your goal is to defeat Scordatura.

The visuals, graphics, sound and game design is almost the same as Hyperdimension Neptunia.

## FASHION

### The Best Hair Styles

By Clara Verdon

Buns: Annie's hair buns A.k.a honey comb! Why I like her hairstyle is because it looks interesting and the hair over her eye looks cool with her hair buns. Just the design of her hair buns with her hair over her eye is an interesting match. I see why people call her honeycomb because her hair looks like large honeycomb! And is also it is Beautiful.

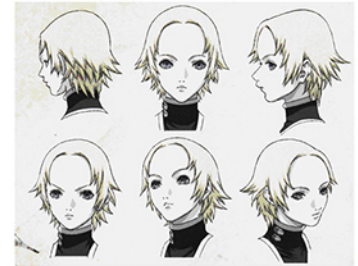

Buns with Curly: Cure Lemonade's conical buns and curls. Why I like her hairstyle is because It looks interesting as well as Annie's but with a long curling strand sticking out of the tip and ending at her waist.

Just the design of Cure lemonade's hair is interesting. They look like wine corkscrew. Curly:Domino's Curly hair. Why I like her hairstyle is because It looks nice on her. The Curly hair looks Beautiful to with her design.

Short: Priscilla's razor-cut! Why I like her hairstyle is because I've seen only guys with that Hairstyle. But Now finally there is a girl with that hairstyle and I think it's really beautiful on her.

Just the design makes it look even Beautiful and I don't know why anyone would hate Priscilla's razor-cut? It's just odd/Dumb! >:(!!! ### Why Local Libraries Are Awesome

By Malaika Braimah

I like to take my time when I do shopping and visit places. The library is also somewhere I like to take my time. It's great because there is no rush and I have time to look at books and everything there.

The local Ottawa brach I visit on Rideau St. is always quite. It is a nice enviroment where I can relax and hear my own thoughts.

Another things I really like about libraries is all the re-sources they have. I can borrow Cd's, read magazine and also use the computer. I enjoy learning something new everytime I visit.

While out for walks or on the way home from theSpace I like to visit the library because it is close to where I live. The close distance means I can visit and get home easily and go whenever I have free time. My local branch is also great because they give me extra time for items and books. Make sure you ask for extra time if you need it. They staff are always nice and friendly

## ADVICE

### Loving Others

By Deshawn Estwick

Why love others is important:

It is important to love others because no is perfect so you should accept them for you they are. When you care about them they will care about you. Love works both ways. If you don't love someone you can't expect them to love you as well.

If you respect others they will also respect you back. No one will care about you if you don't care and love others. If you only care about yourself you don't deserve the love of others.

Also important to remember. You need to love yourself first so can help others if you help yourself and if you take time for yourself it will make you better able to love and support others.

## HOW TO LOVE AND CARE FOR YOUR PET GECKO

By Clara Verdon

I've learnt many things caring for my pet gecko Prissy. I know to hold her very gently and very calmly! She trusts me when I hold her and only I can hold her. It's important that if your considering getting a pet reptile you understand what it takes to care for one. For in stance, handle your gecko when it has reached adulthood. Most growing house geckos do not enjoy being picked up and held. Handling your gecko may also prevent him from getting used to his new environment. House geckos are fragile and if you pull on their tail, they may lose their tail or become injured.

You may want to wait until your gecko is an adult to handle him outside of his cage. Even then, you should be careful when handling him and try not to let him out of your hands as house geckos can move very fast and tend to hide in hard to reach places once they are out of their tanks. Never pick up your gecko from his underbelly. Lifting your gecko from his underbelly will spook him and cause him to jump out of your hands. Make sure you pick him up from the top of his body and get a good grip on him before you lift him out of his tank. You may then cup him in your hands to ensure he does not run away. In general, you should only handle your gecko if you need to remove him to clean the tank. Wash your hands before and after handling your gecko, as you may have bacteria on your hands that can cause illness.

I change Prissy's water every day and check if her moss is still wet if not I water it again. Give your gecko fresh water every day. Provide a small, shallow water bowl for your gecko and fill it with fresh, chlorine free water once a day. The water dish should go on the cool side of the tank. Your gecko may drink from it and/or use it as a spot to bath. Most geckos will drink water droplets from daily misting, rather than from their water bowl. Appropriate temperatures can be achieved by using a small low wattage heat lamp on one end of the of the tank. You may also use a side or under tank heater for your tank. Keep the heat lamp on for 12 hours a day and then turn it off at night. You can also use a blue heat lamp may to control nighttime temperatures.

Add in plants and hiding spots. Live plants and artificial plants provide lots of climbing spots for your gecko. Mist the tank once a day to keep the humidity up. Feed your gecko protein rich meals. You should gut load the insects, feeding them a nutritious diet about 24 hours before offering them to your gecko. Then, give the gut loaded insects to your gecko. Do not give your gecko wild caught insects, as they can carry diseases.

Allow your gecko to shed his skin on his own. Your house gecko will shed his skin in patches every four to six weeks. He may turn a dull color and the skin over his eyelids may pop as he sheds his skin. During the shedding process, your gecko will grow a new layer of skin and it will separate from the old layer, creating a fluid between the two layers. If your gecko has trouble getting old skin off his toes, tail, or head, you can assist him by spraying the area with water and gently massaging the skin until it peels off on its own.

This particular piece was created by Andrew Urie during a recent workshop at theSpace. After spending time searching, selecting and downloading dozens of images for each portion of the landscape he edited and assembled each one.

Andrew has always been eager to try out new programs or methods for creating and designing works of art. He always adds his personal touch (a bit of pink or a favourite anime character) while discovering the joys of how easily projects come together once the artwork is on the computer screen. ### Five Things You Must Do While Visiting Tampa Bay, Florida

By: Julia Tuschak

While your visiting the beautiful city make sure you do some sightseeing. Tampa is known for its amazing aquarium and giant Park Zoo.

Take advantage of the warm weather and nice sun that is everywhere! Stop by the local Clear Water Beech west of Tampa. Here is the ideal location to work on your tan. Bring some sunscreen you are going to need it!

If you are hungry always trust the local places. Try out Migeuls Mexicam Resturant. It has the best fajitas in town, hand down!

If you are in Tampa at the right time be sure to visit a local hockey game to stay cool. The Tampa Bay Lighting are a wonderful NHL team.

There are plenty of tours to go one. I suggest checking out SeaWorld because of the variety of sea creatures on display. You can see turtles, stingrays, as well as killer whales
